

Fantastic Skateboard School – Travis

Hello Jay,

I just had to tell you what a fantastic experience my son had at CJ Skateboard Park!

My son is an actor (& has even filmed with Tony Hawk) and needed to learn some basic skateboarding skills in order to audition for a new television series....we took a few private lessons with a wonderful young man named Travis, who after even 2 lessons, had him doing some basic “tricks”!

The entire experience was fun and positive – and I wanted to let you know how highly we thought of Travis – He was friendly, professional and knowledgeable.

If my son is seriously being considered for the skateboarding role, we will be back “full time” for more sessions with Travis!

And again, please let Travis know how much we really appreciated the time and attention he gave to my son – I really felt he went the extra mile!

Kindly pass onto the team over at the skateboard park how much we appreciated them and the experience!

Thanks again!
